CASPer Test –Undergraduate Teacher Entry in 2019

NOTE: Most of the Universities below require you to have VTAC ID, so this is mainly relevant for study in Victorian Institutions.

The CASPer test is an online screening tool designed to evaluate key personal and professional characteristics that make for successful students and graduates. Traditional evaluations of personal characteristics (e.g. standard interviews, reference letters, and personal essays) have shown to be ineffective in discerning good applicants. CASPer increases fairness in applicant evaluation by providing admissions and selection committees with a reliable measure of traits like professionalism, ethics, communication, and empathy.

Institutions using CASPer results for 2019 are:

Australian Catholic University

Deakin University Federation University

La Trobe University

Monash University

RMIT University

Swinburne University

Victoria University

Test date options are below:

25 September. 8.00pm
